I know I did that homework, I've just got to find it.

So I'm doing this to help those who need it, but whose going to help me when she stickes me with that needle?

A time for everyone to get together Spring Fling at Hugh Mc Crae Park '86.

It's a long walk and everybody's glad when it's over.

DECISIONS! DECISIONS!

Students enjoy the foose ball table.

The changing Cape Fear River.

Where's the teacher?!

# STUDENT LIFE

PEEK-A-BOO!

As students of Cape Fear Tech, we all share a common goal — to develop skills and talents in both academic and non-academic pursuits so we can learn what it is we do well and what we enjoy. We do this by learning our subject matter well and becoming more aware of and coping with the complexities of modern life. Hopefully, we will see how much there is to learn in life and have the motivation also to learn it.

In many ways, school is a microcosm of the working world. We usually have our day begin at 8:00, break for our lunch at noon, and end our day around 4:00. We interact with teachers and fellow students. We work, not for rewards in the form of wages, but in better grades which show our degree of achievement.

We end our day by participating in some social or athletic activity not a part of our school routine but something which interests us.

As college students, we have personal responsibilities to be fair to ourselves since our schedules are less structured than high school.

Don't let yourself down.

Trying to convince a nervous blood donor that this won't hurt requires a very patient Red Cross worker.

Trying to catch up on news before an early class can be a hectic time.

Smiling is one way to brighten others day.

Not to much farther to go, Thank-goodness.

Isn't math great?!

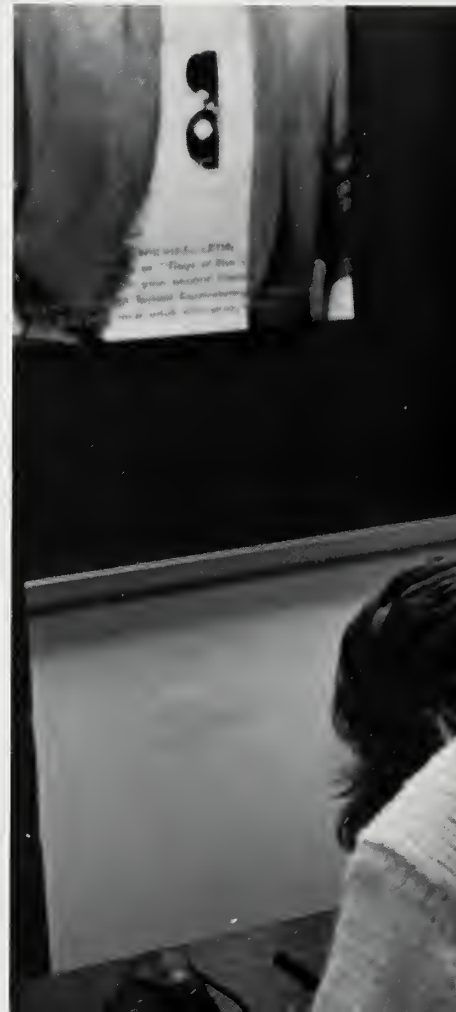

I'll be done in a minute!

COMPUTERS, COMPUTERS!

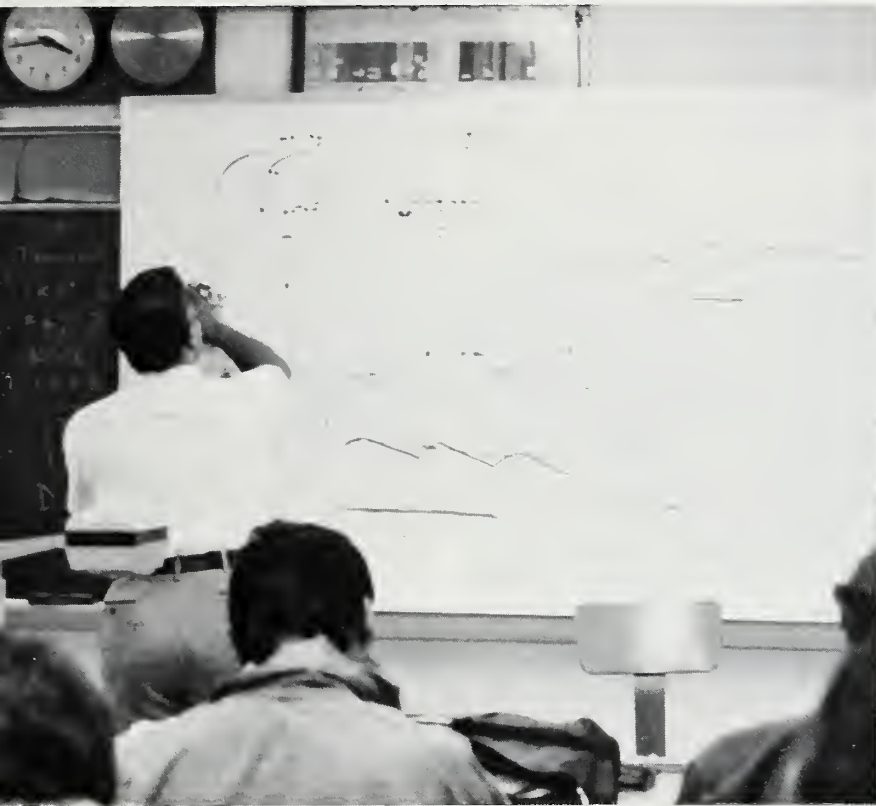

It's great to be alive?

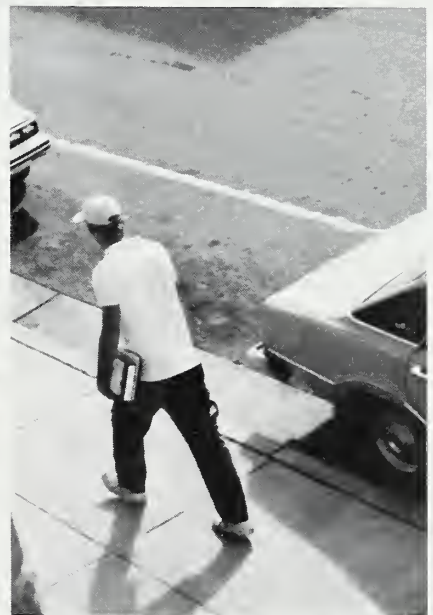

Then take a left at Las Vegas

Yes, This is trilling me to death.

I hope I haven't gotten another ticket.

Watch this! An easy shot.

What are you talking about? I know I hit that ball inside the white lines.

This seems to be the way it's done. If not I guess we'll find out soon enough.

Day dreaming about what she could be doing instead of being in class is a favorite past time of Carol Ann Hayes.

Watch Out! Pilot "Russell" here to save the Universe.

I never knew that working in a library could be so interesting.

We have a terrific selection of books. If I can help in any way just let me know.

Anita seems to be an intent listener.

Jamie Garret enjoys her S.G.A. position.

Yo Dude! Where's the party this weekend.

YUCK!

Am I supposed to be someplace else?

GQ look out!

Time to go home!

Wait! I'm not ready.

This is what school's all about — to some,  
who really know how to enjoy life.

Go ahead! "Make my day", Seems to be Russell Montgomery smile expresses.

Now, make sure you keep your receipt, if you want to return your books.

What better time for relaxing and being with friends than a lunch given by to S.G.A..

Now, Down to business. Let's Eat!

DON'T TAKE MY PICTURE!!

CONGRATULATION!!!! Jamie!

What chemical am I supposed to use?

# TRADE PROGRAMS

This is so interesting!

The students of the trade programs thank the faculty and staff for providing them with a firm foundation for the future.

Often in today's job market, applicants for the available jobs are caught in a "Catch 22" — they can't get the job because they lack experience and yet they can't get experience without getting the job.

These programs give them an added advantage above the rest of the job seekers.

They now have a chance to use the various tools, equipment and instruments of their trade in demonstrating their ability to do the job applied for.

So the knowledge passed on to them has made the year spent here valuable and much worthwhile.

Now this IS bright!

Who put the sewing machine in the van?

Is this reality?

WHERE DID MY CAR GO?

# GRADUATES

AT LAST!

New doors are opening in my life — this is a new day. The door to yesterday is closed forever. The doors to tomorrow are yet to be opened.

New doors are opening in my mind. I shut the door to painful memories and any thought of missed opportunities. I have begun to open doors of inspiration — inviting new beginnings and revealing new joys.

New doors are opening in my heart. I respond to the people in my life with enthusiasm. I no longer feel I am insulated, for the love I know in my heart opens new doors leading me to avenues of sharing and companionship.

New doors have opened in my eyes. I now see my life as an adventure — filled with interesting activities and intriguing possibilities.

We can look at each day as a new one. Let us open new doors and leave the old ones behind.

## MISS CAPE FEAR

Pamela LeNeave of Delco, was crowned Miss Cape Fear Technical Institute for 1986-87 on the GFTI campus on Friday, December 12.

Ms. Pam Morgan was chosen as first runner-up. Pam is the daughter of Mr. and Mrs. James F. Morgan, Jr. and is in the Computer Engineering Technology program.

Miss LeNeave competed for the title in five different categories: casual wear, sportswear, evening gowns, group aerobics, and personal interview.

A \$75.00 scholarship was presented to the winner and a \$50.00 scholar-

ship to the first runner-up, Pam Morgan.

The new Miss GFTI is the 18-year-old daughter of Hallie and Nancy LeNeave of Wilmington and Delco. She is a 1986 graduate of Acme-Delco High School and a student in the Paralegal program at CFTI. She is a member of the CFTI Student Government Association and a Senator for the Paralegal curriculum. Her hobbies include gymnastics, aerobics and swimming. In addition to her crown and title, Miss LeNeave will represent GFTI at local festivals and area events throughout the school year.

NO COMMENT!!

These lines don't ever come out right!

# FRESHMEN

At least we will pass this class.

Being a freshman. For many, the days will not soon be forgotten.

As the years pass and they look back to their memories of days spent at Cape Fear Tech, hopefully they may remember and smile.

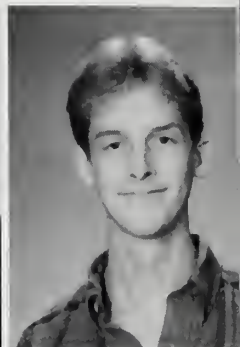

As freshmen, this was a year of decision making. Was their program what they wanted? Would it provide them a foot in the door of the future?

In the beginning it was rough. There were new friends, new teachers, and a new atmosphere. At times, they were discouraged, bored, confused, and worried about exams. The work load seemed too much to handle. They watch as some friends withdraw or just not make it. Then suddenly, it's time for final exams.

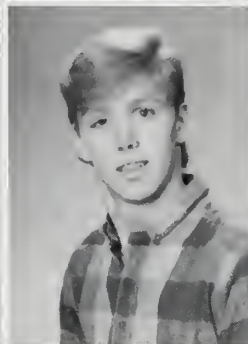

Soon, the freshmen of yesterday will be graduates of tomorrow with new decisions to make.

As you move into your final year, may you already have fond memories of yesterday and the hope of more good days ahead.

# BOARD OF TRUSTEES

We would like to make a special dedication to Mr. Howard Holly who died on August 30, 1986.

He was a sixteen year veteran of the Board of Trustees serving the last two years as the Vice-Chairman. In 1964, he was one of the first four members to be appointed by Governor Terry Sandord. He will be remembered fondly by CFTI.

In memory of Mr. Howard Holly

So, where are the cartoons?

Am I having fun yet?

Now who ordered these Tonka Toys?

Surely you understand it by now!

# FACULTY

Say what?

Faculty — teachers — imparters of knowledge.

By whatever name they go by, we can also know them as friends.

They take special pride in their classes and delight in seeing their students do well.

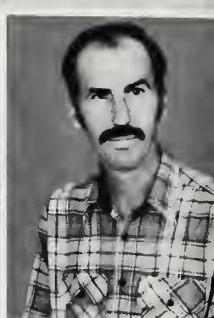

Because of our teachers, we may one day have that job we had hoped for and worked so hard to prepare for.

Our future success — although ours to ultimately determine — depends a great deal on our faculty and how well we have interacted with them.

We salute them for the challenges they sent our way and for their faith in us to accept the challenge and succeed.

To my one and only true love:

The years have past together we've spent.  
I know now you were heaven sent.  
My life is complete, I tell you true. For the rest of it I'll  
always

LOVE YOU

This Space  
Dedicated To  
The  
Graduates

Good Luck From
